PREFACE

Directory of Construction Materials has been published by the National Construction council on an annual basis since 2003 to provide a locational tool for construction materials for all stakeholders needing to know where to get what.

The Directory is also a marketing tool for construction materials producers/suppliers because after publication it is distributed free of charge to potential buyers of such materials.

We are now publishing the eighth edition which has included a total of 404 companies producing or supplying various types of construction materials or offering services related to the development of the construction industry.

We urge those who have never listed their products and/or services to do so in the coming issue.

We also encourage those who have been listing their products to continue doing so and add any new products available. Continued support from all stakeholders in publishing this document is of prime importance and will be highly appreciated.

We sincerely thank all those companies which responded to this exercise positively.

Chief Executive Officer

NATIONAL CONSTRUCTION COUNCIL

Mansfield Street, P.O. Box 70039, Dar es Salaam

Tel: 255 22 2131321, 2125553, 2110869; Fax 255 22 21118887

E-mail: info@ncc.go.tz; Website <http://www.ncc.go.tz>

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

Dear Readers

It is my great pleasure to extend heartfelt greetings to the readers of the Directory of Construction Materials, Plants and Equipment.

The Directory is widely circulated within and outside the country. Recipients of the Directory are different stakeholders of Construction Industry including but not limited to Contractors, Clients, and Consultants, Government Institutions, Embassies, Private sector firms, Libraries and Media houses.

It is envisaged that through the Directory, beneficiaries will get informed on the contacts and resources obtained from various suppliers of construction materials. Apart from being a marketing tool for producers/suppliers of the construction materials, the Directory is also a source of information on the range of such materials locally available in Tanzania.

The directory provides space for manufacturers of construction equipment and suppliers of construction materials to advertise their products thus making it a good reference document for a wider range of the construction industry.

We take this moment to say, we are glad you're with us! We look forward to diligently serving you for many years to come.

National Construction Council shall strive to make the Directory a regular annual product and on that account we kindly welcome adverts, comments and suggestions for improvement.

Dr. Matiko Samson Mturi
Chief Executive Officer
National Construction Council

PROFILE

NATIONAL CONSTRUCTION COUNCIL (BARAZA LA TAIFA LA UJENZI)

Mansfield Street, P.O. Box 70039, Dar es Salaam, Tanzania

Tel: +255-22-2131321, +255-22-2135553, +255-22-2110869, Fax: + 255-22-2118887

PURPOSE

The National Construction Council (NCC) is a government institution established through Act of Parliament No. 20 of 1979 (National Construction Council Act CAP 162 R.E. 2008) and became operational in 1981. Its establishment was prompted by the need to have an institution for promoting the development of the construction industry in Tanzania.

MISSION

To promote and provide strategic leadership for the development of the construction industry in Tanzania with emphasis on the development of the local capacity.

VISION

To be an outstanding provider of strategic leadership for the development of a competitive Tanzanian Construction Industry.

FUNCTIONS

The functions of the Council are:

- To promote and provide strategic leadership for the growth, development and expansion of the construction industry in Tanzania with emphasis on the development of the local capacity for socio-economic development and competitiveness in the changing global environment;
- To advise the government on all matters relating to the development of the construction industry and to formulate proposals and recommendations for their implementation;
- To provide advisory services and technical assistance to construction industry stakeholders on all matters related to the construction industry;
- To promote and co-ordinate quality training for persons engaged, or to be engaged in the construction industry;
- To promote, conduct and co-ordinate research on all matters related to the construction industry;

- To promote the documentation and dissemination of information related to construction industry and to compile and maintain list of projects and directory of construction materials and equipment.
- To promote and monitor the development and implementation of standards, regulations and codes of practices on all related to the construction industry;
- To promote the use of innovative technologies and the application of best practices in the construction industry;
- To promote and establish forums for enhancing industry-wide co-ordination, collaboration and discussion on matters related to the construction industry;
- To benchmark, monitor and evaluate the performance of the construction industry;
- To solicit and manage the fund for training of personnel in the construction industry;
- To promote quality management including provision of technical auditing services in the construction industry;
- To promote environmentally sustainable construction practices including health and safety aspects;
- To promote the export of goods and services related to the construction industry;
- To facilitate efficient resolution of disputes in the construction industry

SERVICES

The major services provided by the Council include sector coordination, advisory services, settlement of disputes, training, technical auditing, research, publications and information support.

TECHNICAL PUBLICATIONS AND INFORMATION SUPPORT

Over the years, NCC has been progressively establishing a central reservoir of information for the construction industry. Currently, NCC has published technical guidelines, maintains data banks, and manages a reference library. Current publications include: price fluctuation formula and indices, arbitration rules, directory of construction materials, site protection, site control and management, materials and specifications, site meetings, setting out works, record keeping, basic statistical data for the construction industry and standard contract agreements for building works. A bi-monthly "Construction Business" Journal has continued to be published since 1997.

CLIENTELE

All stakeholders in the construction industry who include government, government institutions, multilateral and bilateral funding agencies, local and foreign development agencies, promotional and regulatory bodies, contractors, consultants, private sector enterprises and individuals.

SOLUTION THAT WISTAND MAJOR EARTHQUAKE DESTRUCTION ON BUILDINGS/STRUCTURES

A single storey unsymmetrical building (with accessible roof balcony), of height 4 m with some gable partition walls experienced major failure due to Kagera Earthquake.

YOUR SOLUTION TO EARTHQUAKE DESTRUCTION ON BUILDINGS/STRUCTURES IS HERE

- ❖ The major impact of earthquakes on buildings/structures can be avoided by following earthquake experts' advice.
- ❖ Like how it happened in Bukoba it can also happen anywhere because Tanzania is traversed by the Rift system. Since it is not known WHEN and WHERE is the next earthquake and HOW it is going to destroy your buildings/structures;
 - It is therefore advised to adhere to professional advice on buildings to prevent earthquake damage.

- ❖ Not everywhere a storey or many storeys building/structure are suitable for construction;
 - There have to be an advise from earthquake experts on **HOW many** storeys and **WHAT** type of structure is suitable based on the subsurface characterization of a particular site.
 - It is advised to contact experts for seismic hazard and site analyses for earthquake resistant design.
- ❖ Advise from earthquake experts aims to ensure buildings or structures under consideration can withstand a certain level of shaking without excessive damage.

Provides Architecture and Interior Design Services to our Clients from Initial Concept Right Through to Completion.

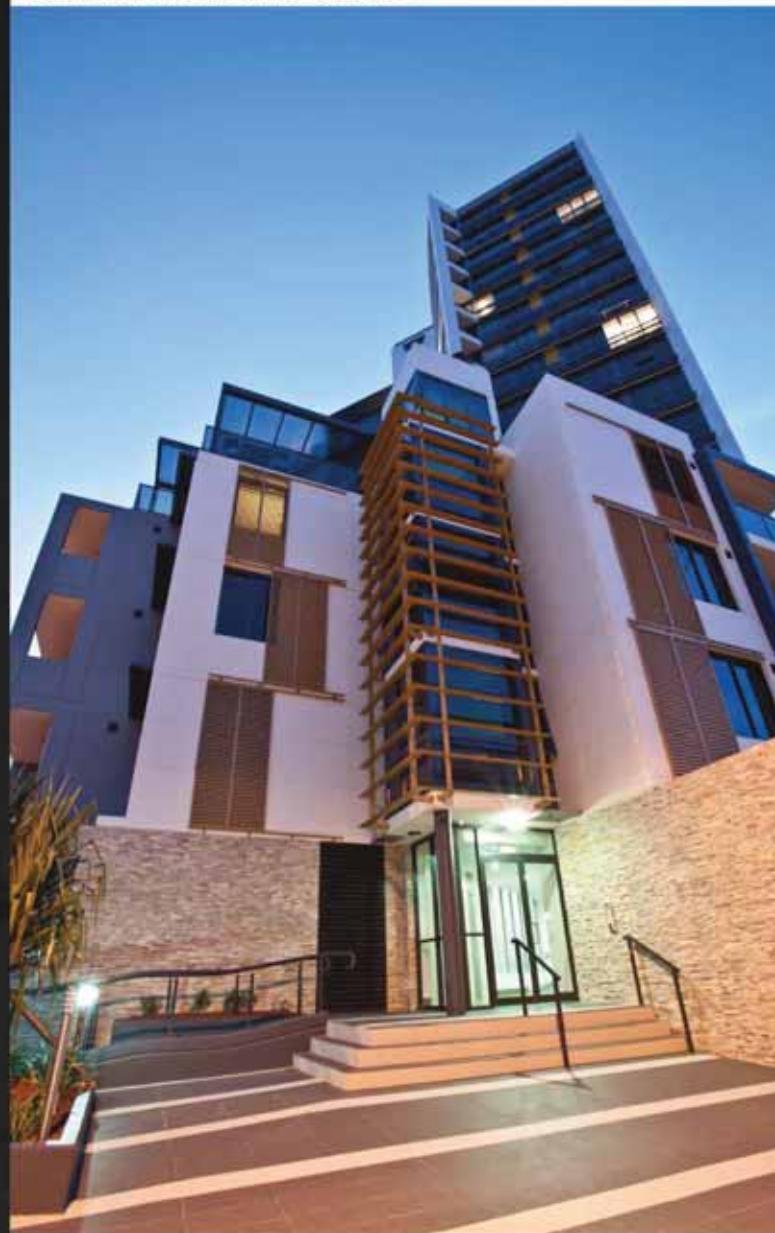

We Create the Concept Based upon our Understanding of Accelerating Change in our Culture, Based on the People Who Lives In, and Work At, also on the Physical Considerations of a Site, and Its Impact on the Surrounding Community.

Our Projects range from

- **Private Apartments & Villas**
- **Hotels and Resorts**
- **Residential Buildings**
- **Office Blocks**
- **Showrooms & Commercial Spaces**

Our scope of work includes:

- **PLANNING and CONCEPT DESIGNS**
- **3D VISUALS and PRESENTATIONS**
- **DESIGN OPTIONS and DEVELOPMENT**
- **SOURCING and MATERIAL SUPPLIES**
- **PROJECT ADMINISTRATION**
- **FINISHING and HANDOVER**
- **LIGHTING SYSTEMS / FURNISHINGS**
- **KITCHEN CABINETS / WARDROBES**
- **PRE - ENGINEERED STRUCTURES**
- **PORTABLE CABINS**
- **CURTAIN WALL & PARTITIONS**
- **ALUMINIUM and GLASS WORKS**

Dar es Salaam

So, what do you think of this directory of Construction Materials?

If you have any comments or suggestions on how we can improve
this Directory or have any adverts to share.
Please send as email through, info@ncc.go.tz

PLASCO LTD

PLASCO LTD

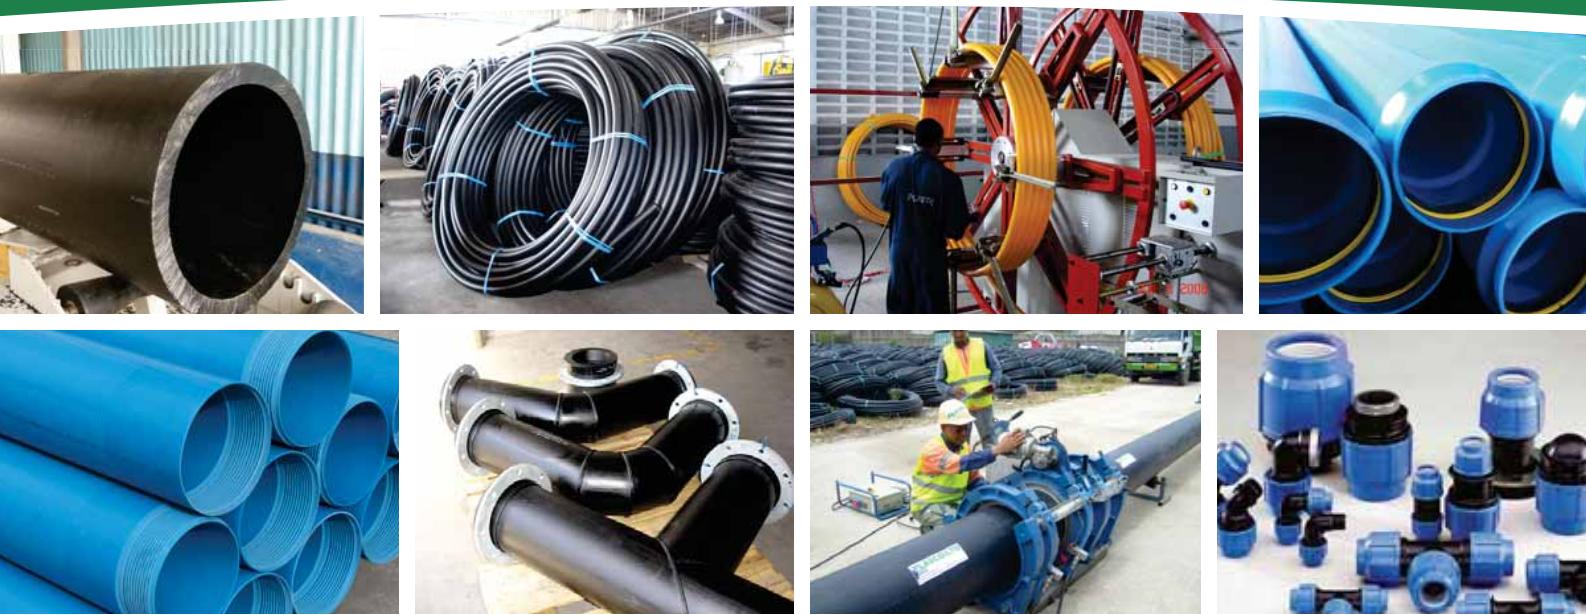

LIFELINES FOR THE NATION

PLASCO LTD

Manufacturers of
HDPE and PVC-U pipes

COMPLETE PIPING SOLUTIONS

Plasco Limited is a Tanzanian company providing complete plastic piping solutions since 1993. Plasco manufactures and supplies high quality HDPE and uPVC pipes to the East African market. Plasco is ISO 9001:2008 certified by SGS/UKAS. Its products are certified by the Tanzania Bureau of Standards (TBS) and the KIWA Gastec Certification Laboratories, Netherlands.

Plasco manufactures HDPE pressure pipes to ISO4427 & ISO4437 standards using only high quality PE 100 and PE 80 virgin raw materials. These HDPE pipes ranging in outside diameter from 16mm to 630mm with pressure ratings up to PN20 are available in coils and straight lengths. Typical applications include Water supply, Gas distribution, Slurry/Process fluid transport and Telecom ducting.

Plasco manufactures uPVC pressure pipes to ISO1452 standard with a socketed-end and supplied complete with a pressure lock rubber seal for a superior joint. The derived products are ideally suited for applications in both pumping and gravity design. The uPVC product range includes Pressure Pipes, Sewage Pipes, Slotted Drainage Pipes, Borehole Casings, and Wastewater Down Pipes.

Plasco specializes in manufacturing custom-made PE fabricated fittings up to 630mm diameter in accordance with ISO 4427-Part 3 and ISO 4437-Part 3 standards respectively. Plasco can also supply PE Moulded, PE Electro fusion, Compression, PVC and Steel fittings (Valves and Flanges) enabling it to offer a complete piping system solution to its clients.
