MANAGEMENT OF CONSTRUCTION VARIATIONS, CLAIMS AND DISPUTES

Ensuring Successful Completion of Construction Projects

The National Construction Council is organizing a five (5) days course (21st to 25th September, 2026) on Management of Construction Claims and Variations to be held in MWANZA.

Objective: The course on Management of Variations, Claims and Disputes in Construction Projects is aimed to impart participants with the essential knowledge and skills needed to successfully manage construction projects. By exploring industry best practices, legal frameworks, and practical strategies, participants will gain a comprehensive understanding of the complexities involved in managing variations, claims and disputes in construction projects. Through interactive sessions, case studies, and real-life examples, we aim to empower professionals in the construction industry to proactively identify, assess, and manage variations to ensure successful project delivery within budget and time constraints. Additionally, participants will learn how to navigate the claims process, from documentation and assessment to negotiation and resolution, ultimately minimizing disputes and optimizing project outcomes. This course is designed to enhance participants' expertise and confidence in handling variations and claims, consequently avoiding disputes and enabling them to contribute effectively to the overall success of construction projects.

Course Content:

- Introduction to Project Scope Management
- Construction Contracts and Variations Management
- Paradigms of construction project variations
- Certification and Payment of Variations
- Claims Management in different forms of Contract,
- Legal Aspects of Claims Management
- Delay Analysis and Evaluation of Claims
- Claims Management from Contractors Perspective
- Claims Management from Client/Consultant Perspective
- Dispute Management in Construction Projects
- Adjudication and Arbitration in Construction Contracts
- Practical Applications and Case Studies

Venue: The course will be conducted at **GOLD CREST HOTEL - MWANZA**

Duration: The course will run for five days from 21st to 25th September, 2026. Each day the course will start at 8.30 am.

Participation: The course is open to anyone interested in acquiring or sharpening their skills in administration of construction contracts including Architects, Engineers, Estate Managers, Quantity Surveyors, Lawyers, Contractors, Procurement Officers, Mediators, Arbitrators and Adjudicators, Project Managers, Public and Private Clients and other professionals.
